RE:	Insured:	I 69 INVESTMENTS LLC
	Claim Number:	F1M3828
	LSG Matter Number:	787200.12767-00
	Date of Loss:	December 9, 2025

Dear Ms. Carman,

Thank you for choosing Loss Solutions Group as your equipment loss consultant. This report provides an analysis of the above-referenced claim.

Assignment:

Loss Solutions Group was contacted by Ms. Cassidy Carman of Travelers Insurance. The scope of this assignment was to assess the extent of damage, repair costs, and salvage value associated with the insured's Gilbarco-branded Encore model Diesel Exhaust Fluid (DEF) cabinet/dispenser and protective concrete barrier bollard. The equipment sustained damage during a vehicle accident event on December 9, 2025.

Findings and Analysis:

Loss Solutions Group contacted the insured, Mr. Mohammed Shazahan with I 69 Investments LLC (979-422-7466), to discuss our role in the claim. Mr. Shazahan explained that on December 9, 2025, a truck collided with his DEF cabinet and a concrete/metal bollard while attempting to back into one (1) of his fueling stations. The impact bent the metal bollard and severely damaged the DEF cabinet, necessitating replacement of both items.

Loss Solutions Group contacted the insured's gas pump repair vendor, ECT of Tennessee (901-279-5466), and spoke with Mr. Hassan Najdawi to discuss the claimed event and their proposed repairs. Mr. Najdawi reported that the insured's DEF cabinet was completely damaged and would need to be fully replaced. This replacement will also include the metal bollard designed to protect the cabinet, as well as the upper Gilbarco black housing cover. Lastly, Mr. Najdawi explained that they would provide a refurbished DEF cabinet to match the previously installed model.

A total amount of $12,520.07 was presented.

Scope of Damage

Loss Solutions Group submits that the insured's Gilbarco-branded Encore model DEF cabinet/dispenser and protective concrete barrier bollard sustained damage during a vehicle accident event on December 9, 2025.

Age & Condition

Loss Solutions Group was provided with photographs of the unit and the nomenclature nameplate for the unit. We submit that the unit was manufactured in 2022, making it three (3) years old and in average condition at the time of the claimed event.

Reparability

Loss Solutions Group has reviewed the provided information and discussed the damage with the vendor involved. We submit that the proposed replacement path is warranted due to the extent of damage reportedly sustained during the claimed event.

Cost Analysis

Loss Solutions Group assessed the proposed costs by cross-referencing with alternative vendors, drawing on historical data for similar repairs, evaluating comparable equipment pricing, and consulting directly with the involved vendor to verify reasonableness.

ECT OF TENNESSEE (901-279-5466) INVOICE # 26013102

Loss Solutions Group reviewed the proposal presented by ECT totaling $12,520.07 for the replacement of the insured's DEF cabinet.

Included in the cost is an amount for a rebuilt/refurbished Gilbarco-branded Encore style DEF cabinet (left side), an upper housing cover for an NPB style Gilbarco pump, one (1) nozzle boot, and one (1) replacement bollard. We submit that these components are required to complete the replacement, and the costs are fair and reasonable.

Loss Solutions Group has reviewed the labor costs for the vendor to diagnose the damage and to perform the replacement. We submit that these amounts are fair and reasonable to complete the scope of work as presented to us.

Note: A difference was noted between the claim cost and Loss Solutions Group's researched cost, totaling $1,156.67. This discrepancy is associated with the costs for the DEF cabinet and upper housing cover, which we found to be lower when obtaining a secondary quote.

© 2022 by Loss Solutions Group, LLC. All rights reserved.

RCV

Loss Solutions Group submits an amount of $11,363.40 (RCV) as being fair and reasonable to return the insured to a pre-loss condition. A further breakdown of the pricing is available in the attached spreadsheet.

ACV

Loss Solutions Group submits an actual cash value (ACV) amount of $9,476.99 based on linear age depreciation of the materials only. We estimate the average life expectancy of the equipment to be around fifteen (15) years.

Salvage

Loss Solutions Group submits that there is little to no salvage value associated with this claimed event.

Summary:

Loss Solutions Group's findings herein are based upon all information that was available at the time of this writing. The opinions are based upon reviewed documentation, interviews, research, experience, historical references, training and education.

1. The insured, I 69 Investments LLC, reported damage to their Gilbarco-branded Encore model DEF cabinet/dispenser and protective concrete barrier bollard sustained damage during a vehicle accident event. A total amount of $12,520.07 was presented.

2. Loss Solutions Group was provided with photographs of the unit and the nomenclature nameplate for the unit. We submit that the unit was manufactured in 2022, making it three (3) years old and in average condition at the time of the claimed event.

3. Loss Solutions Group has reviewed the provided information and discussed the damage with the vendor involved. We submit that the proposed replacement path is warranted due to the extent of damage reportedly sustained during the claimed event.

4. Loss Solutions Group submits an amount of $11,363.40 (RCV) as being fair and reasonable to return the insured to a pre-loss condition. A further breakdown of the pricing is available in the attached spreadsheet.

    a. A difference was noted between the claim cost and Loss Solutions Group's researched cost, totaling $1,156.67. This discrepancy is associated with the costs for the DEF cabinet and upper housing cover, which we found to be lower when obtaining a secondary quote.
