RE:	Insured:	Main Street Tacos LLC
	Claim Number:	CP0021307830
	LSG Matter Number:	427800.16574-00
	Date of Loss:	November 21, 2025

Dear Ms. Thompson,

Thank you for choosing Loss Solutions Group as your equipment loss consultant. This report provides an analysis of the above-referenced claim.

Assignment:

Loss Solutions Group was contacted by Ms. Ashlee Thompson of The Hartford. The scope of this assignment was to assess the extent of damage and salvage value associated with the insured's Econ Air-branded kitchen vent hood and related items, along with a walk-in cooler unit. Both items were reported to have sustained damage during a fire event on November 21, 2025.

Findings and Analysis:

Loss Solutions Group contacted the insured, Mr. Frank Alanzo with Main Street Tacos LLC (817-726-5533), to discuss his role in the claim. Mr. Alanzo explained there was a fire in his kitchen that caused severe damage to his vent hood, high voltage electrical wiring, the stainless-steel panels for the walls under the hood, fire insulation, and grease ductwork. Mr. Alanzo further explained how his walk-in cooler's compressor sustained damage during the fire from shorting out wires running power to its compressor.

Loss Solutions Group contacted the insured's sheet metal repair vendor, RNP Sheetmetal (214-213-0322), and spoke with Mr. Rick Pineda to discuss the claimed event and their proposed repairs. After reviewing the proposal submitted by the insured (Proposal #1380), Mr. Pineda clarified that it was the incorrect version and instructed us to refer to Proposal #1479 instead. He provided a copy of the corrected proposal for our reference. Mr. Pineda explained that a fire in the kitchen caused

© 2022 by Loss Solutions Group, LLC. All rights reserved.

significant damage to the vent hood, the surrounding walls, some grease ducting above the grill, and the insulation around the ducting, all of which necessitated replacement.

Loss Solutions Group attempted to contact the insured's HVAC repair vendor, Ice Berg (817-551-8080 and esmeralda@iceberg.outlook.com), but encountered difficulties reaching someone using the phone number and email address provided at the top of the invoice. The phone number listed actually belonged to an Alcon Vision Center, and we did not receive any response to our email inquiry.

While searching for the correct contact information on Yelp, we found another number listed (817-902-9621), but that was also disconnected. The Better Business Bureau listed the correct number as 817-920-9950, which we confirmed to be the office number for Ice Berg.

Loss Solutions Group spoke with Ms. “Andrea”, who informed us that she could not locate the referenced invoice (#3422) in their records. She requested that we email her a copy of the invoice so they could verify it in their system. Ms. “Andrea” later replied, stating, “This invoice was not created by us, and we do not have Main Street Tacos in our system.”

Subsequently, Loss Solutions Group asked the insured for the contact information he had used and the name of the person he spoke with. The insured provided us with the contact information for Mr. Manuel Perez (817-851-3818). We spoke with Mr. Perez about the claimed event and the repairs he had already completed. Mr. Perez explained that when he assessed the insured’s walk-in cooler, he discovered the compressor was shorted out to ground due to melted wires from the fire, resulting in a power surge necessitating its replacement.

A total amount of $16,476.88 was presented.

Scope of Damage

Loss Solutions Group submits that the insured’s Econ Air-branded kitchen vent hood and related items, along with a walk-in cooler unit, were damaged. The items reportedly sustained damage during a fire event on November 21, 2025.

Age & Condition

The insured reported that the affected equipment was around one and one-half (1.5) years old and in average condition at the time of the claimed event.

Cost Analysis

Loss Solutions Group assessed the proposed costs by cross-referencing with alternative vendors, drawing on historical data for similar repairs, evaluating comparable equipment pricing, and consulting directly with the involved vendor to verify reasonableness.

© 2022 by Loss Solutions Group, LLC. All rights reserved.

RNP SHEETMETAL (972-329-8288) PROPOSAL # 1479

Loss Solutions Group reviewed the proposal presented by RNP Sheetmetal totaling $13,500.00 for the replacement of the insured's vent hood and related items.

Included in the cost is an amount for a ten foot (10') long type 1 vent hood with lights and filters, stainless steel panels, some grease ducting, and double-layered fire wrap for the grease duct. We submit that these components are required to complete the repairs, and the costs are fair and reasonable.

Loss Solutions Group has reviewed the labor costs for the vendor to diagnose the damage and to perform the repairs. We submit that these amounts are fair and reasonable to complete the scope of work as presented to us.

ICE BERG (817-851-3818) INVOICE # 3422

Loss Solutions Group reviewed the invoice presented by Ice Berg totaling $2,976.88 for the repairs to the insured's walk-in cooler.

Included in the cost is an amount for a Copeland-branded scroll compressor, a liquid line filter, copper connections, and brazing materials. We submit that these components were required to complete the repair, and the costs are fair and reasonable.

Loss Solutions Group has reviewed the labor costs for the vendor to diagnose the damage and to perform the repairs. We submit that these amounts are fair and reasonable to complete the scope of work as presented to us.

RCV

Loss Solutions Group submits an amount of $16,476.88 (RCV) as being fair and reasonable to return the insured to a pre-loss condition. A further breakdown of the pricing is available in the attached spreadsheet.

ACV

Loss Solutions Group submits an actual cash value (ACV) amount of $15,407.81 based on linear age depreciation of the materials only. We estimate the average life expectancy of the equipment to be around twenty (20) years.

Salvage

Please refer to your internal salvage department to assess the salvage potential.

Summary:

Loss Solutions Group's findings herein are based upon all information that was available at the time of this writing. The opinions are based upon reviewed documentation, interviews, research, experience, historical references, training and education.

1. The insured, Main Street Tacos LLC, reported damages to their Econ Air-branded kitchen vent hood and related items, along with a walk-in cooler unit. The items reportedly sustained damage during a fire event. A total amount of $16,476.88 was presented.

2. The insured reported that the affected equipment was around one and one-half (1.5) years old and in average condition at the time of the claimed event.

3. Loss Solutions Group submits an amount of $16,476.88 (RCV) as being fair and reasonable to return the insured to a pre-loss condition. A further breakdown of the pricing is available in the attached spreadsheet.

4. Loss Solutions Group submits an ACV amount of $15,407.81 based on linear age depreciation of the materials only.

5. Please refer to your internal salvage department to assess the salvage potential.

If you have any questions or if you need any additional information, please feel free to contact Tanner Beuret at (866) 899-8756 ext. 755, or via email at tbeuret@losssolutionsgroup.com. Team Leader Nick Ramos can be reached at (866) 899-8756 ext. 724, or via email at nramos@losssolutionsgroup.com.

Subject: Regarding invoice # 3422

Hi Andrea,

Thank you for your assistance in this matter. Very confusing why this invoice is not popping up and has the wrong info on it. See attached.

Do you have any invoices for the insured, Main Street Tacos?

Best,

Tanner
