Mr. Neri Barragan
Travelers Insurance
P.O. Box 430
Buffalo, NY 14240

RE:	Insured:	Becnel Rental Tools
	Claim Number:	FQD1120
	LSG Matter Number:	787200.12739-00
	Date of Loss:	December 3, 2025

Dear Mr. Barragan,

Thank you for choosing Loss Solutions Group as your equipment loss consultant. This report provides an analysis of the above-referenced claim.

Assignment:

Loss Solutions Group was contacted by Mr. Neri Barragan of Travelers Insurance. The scope of this assignment was to assess the cause of loss, extent of damage, repair costs, and salvage value associated with the insured's eight (8) calibration tools reportedly stolen in a vandalism/theft event on December 3, 2025.

Findings and Analysis:

Loss Solutions Group contacted the insured, Mr. Roman Melnyk with Becnel Rental Tools (585-805-5367), to discuss his role in the claim. Mr. Melnyk explained that they lost eight (8) calibration tools while on a job in Portland, Oregon. He described how the tools were left in a tool bag inside a work vehicle overnight at a hotel, and when they returned in the morning, the tools were stolen. He noted that there were no signs of forced entry. They requested the hotel's security cameras, though there were no cameras in that section of the parking lot. The insured mentioned that he provided an invoice from East Hill Instruments, Inc., indicating that only half of the stolen tools were ordered, and that they would need to place a second order for the remaining tools.

Loss Solutions Group contacted the insured's parts vendor, East Hill Instruments, Inc. (516-723-9900), and spoke with Mr. Sech Ragner in sales to discuss their invoice and costs. The vendor looked up the order, confirmed its authenticity and noted that there would be no sales tax on the

© 2022 by Loss Solutions Group, LLC. All rights reserved.

order, as they were in New York and their customer was in Virginia. A total amount of $11,652.28 was presented.

Scope of Damage

Loss Solutions Group submits that the insured's eight (8) calibration tools were reportedly stolen in a vandalism/theft event on December 3, 2025.

Age & Condition

The insured reported that the affected equipment was two (2) years old and in average condition at the time of the claimed event.

Cause of Loss

Loss Solutions Group submits that, based on the details we received from the insured, the loss is consistent with a vandalism/theft event.

Cost Analysis

Loss Solutions Group assessed the proposed costs by cross-referencing with alternative vendors, drawing on historical data for similar repairs, evaluating comparable equipment pricing, and consulting directly with the involved vendor to verify reasonableness.

EAST HILL INSTRUMENTS, INC. (516-723-9900) INVOICE # 31870 (THIS ORDER WAS FOR HALF OF THE TOTAL LOSS)

Loss Solutions Group reviewed the invoice presented totaling $5,826.14 for the replacement tools.

Included in the cost is an amount for a Winchester-branded auto ranging digital pressure gauge up to 3,000psi, a Magnum-branded pneumatic calibration hand pump, a Magnum-branded hydraulic calibration hand pump, a Winchester-branded digital pressure gauge up to 10,000psi, and a charge for shipping and handling. We submit that these components were required to complete the replacement, and the costs are fair and reasonable.

Note: A difference was noted between the claim cost and Loss Solutions Group's researched cost, totaling $197.02. The difference is attributed to a credit card fee of 3.6%. This fee was incurred because the insured used a credit card for the purchase. If the insured had opted to pay by wire transfer, there would have been no fee. We submit this cost to the carrier for consideration.

© 2022 by Loss Solutions Group, LLC. All rights reserved.

EAST HILL INSTRUMENTS, INC. (516-723-9900) (SECOND ORDER IS REQUIRED TO BRING INSURED BACK TO PRE-LOSS STATE)

Loss Solutions Group submits that the insured will need to place this second order to bring them back to a pre-loss state. A total amount of $5,826.14 is the cost the insured presented for this second order.

Included in the cost is an amount for a Winchester-branded auto ranging digital pressure gauge up to 3,000psi, a Magnum-branded pneumatic calibration hand pump, a Magnum-branded hydraulic calibration hand pump, a Winchester-branded digital pressure gauge up to 10,000psi, and a charge for shipping and handling. We submit that these components are required to complete the replacement, and the costs are fair and reasonable.

Note: A difference was noted between the claim cost and Loss Solutions Group's researched cost, totaling $197.02. The difference is attributed to a credit card fee of 3.6%. This fee is due to the insured using their credit card for the purchase. If the insured were to pay by wire transfer, there would be no fee. We submit this cost to the carrier for consideration.

RCV

Loss Solutions Group submits an amount of $11,258.24 (RCV) as being fair and reasonable to return the insured to a pre-loss condition. A further breakdown of the pricing is available in the attached spreadsheet.

ACV

Loss Solutions Group submits an actual cash value (ACV) amount of $9,039.84 based on linear age depreciation of the materials only. We estimate the average life expectancy of the equipment to be around ten (10) years.

Salvage

Loss Solutions Group submits that there is little to no salvage value associated with this claimed event.

Summary:

Loss Solutions Group's findings herein are based upon all information that was available at the time of this writing. The opinions are based upon reviewed documentation, interviews, research, experience, historical references, training and education.

1. The insured, Becnel Rental Tools, reported that eight (8) of their calibration tools were reportedly stolen in a vandalism/theft event. A total amount of $11,652.28 was presented to us.

© 2022 by Loss Solutions Group, LLC. All rights reserved.

2. The insured reported that the affected equipment was two (2) years old and in average condition at the time of the claimed event.

3. Loss Solutions Group submits that, based on the details we received from the insured, the loss is consistent with a vandalism/theft event.

4. Loss Solutions Group submits an amount of $11,258.24 (RCV) as being fair and reasonable to return the insured to a pre-loss condition. A further breakdown of the pricing is available in the attached spreadsheet.

    a. A difference was noted between the claim cost and Loss Solutions Group's researched cost, totaling $394.04. The difference is attributed to two (2) credit card fees of 3.6%. These fees are due to the insured using their credit card for the purchase. If the insured were to pay by wire transfer, there would be no fee. We submit this cost to the carrier for consideration.

5. Loss Solutions Group submits an ACV amount of $9,039.84 based on linear age depreciation of the materials only.

6. Loss Solutions Group submits that there is little to no salvage value associated with this claimed event.

If you have any questions or if you need any additional information, please feel free to contact Tanner Beuret at (866) 899-8756 ext. 755, or via email at tbeuret@losssolutionsgroup.com. Team Leader Nick Ramos can be reached at (866) 899-8756 ext. 724, or via email at nramos@losssolutionsgroup.com.

Best regards,

Tanner Beuret

Key Features | **Details** | More Information

The Winchester Engineering Model 2 Wide Range Digital Gauge will replace the need to use many gauges of different ranges to achieve and maintain high accuracy (0.05% f.s.) throughout a wide span (2,500-10,000 psi). The Model 2 is explosion proof and fully temperature compensated. It has a large, vibrant one line display. It is housed in a high impact, sturdy case with an optional rubber boot for additional protection.

Hydraulic Calibration Hand Pump, 10,000 psi

Our Part No. M10 Mfr. Model M-10

The Magnum M10 Hydraulic Calibration Hand Pump, 10,000 psi utilizes a fully adjustable stroke control to allow for quick priming, easy pumping, and fast pressure generation up to 10,000 psi (700 bar).

- 0 - 10,000 PSI (700 Bar)
- Compatible with most hydraulic fluids, oils and water
- Connections (2 ports) 1/4 in. NPT/BSP
- Weight - 3 lbs
- Contoured cushion handles
- Patented protective cage around vent knob

The Magnum MVP600 Pneumatic Calibration Hand Pump, 600 psi produces pneumatic pressure and vacuum to check calibration of gauges, switches, transmitters, and recorders. The contoured cushioned handles provide extra comfort while preventing the pump from sliding. The oversized check valve provides smooth operation throughout the output range while the dual o-rings on all pistons ensure zero leakage. Patented Mash proof vent valve comes standard on all MVP-600s (No Needle Valve) and a non-oil based lubricant is used on all moving parts.
