RE:	Insured:	MODULE X SOLUTIONS, LLC
	Claim Number:	DHW6312
	LSG Matter Number:	787200.12555-00
	Date of Loss:	March 24, 2023

Dear Ms. Rieder,

Thank you for choosing Loss Solutions Group as your equipment loss consultant. This report serves to provide an analysis of the above-referenced claim.

Assignment:

Loss Solutions Group was contacted by Ms. Brandi Rieder of Travelers Insurance. The scope of this assignment was to address the extent of damage, repair / replacement costs, and salvage value associated with the insured's Sanil Electric pad-mounted 3,360/4,200 kVA transformer. The equipment was damaged due to a human error / accident on March 24, 2023.

Findings and Analysis:

Loss Solutions Group contacted the insured, Ms. Janice Jones with Module X Solutions, LLC (318-426-1459), to outline our role in assessing the claimed event. Ms. Jones explained that a Sanil transformer was delivered damaged, requiring repairs after a forklift reportedly collided with it, thus affecting one (1) of the unit's radiators. The repair process was performed by vendor Electrical Reliability Services (ERS) and involved draining the oil, disassembling the unit, removing the damaged radiator section, performing internal and external welding, installing a new radiator section from the manufacturer (Sanil Electric Co. in Korea), replacing the transformer oil, and finally conducting an operational test.

Loss Solutions Group contacted the insured's electrical repair vendor, ERS (318-453-3070), and spoke with Mr. Adam Lofton, the area manager, to discuss the claimed event and repairs performed. The vendor reported that the transformer's damage necessitated extensive repairs, including removing the affected section, welding internal and external damages, installing a new radiator

© 2022 by Loss Solutions Group, LLC. All rights reserved.

section, executing a thorough dehydration process to eliminate moisture before refilling with radiator oil, and conducting a functional test upon startup to finalize the repairs.

Loss Solutions Group contacted the insured's oil supply company, Petroleum Service Company (PSC) (570-822-1151), and spoke with Ms. Cheyanne Loftus from the service department to review the presented invoices. Though the two (2) orders (order IDs #176367 and #176377) were placed in April 2023, Ms. Loftus was able to confirm their validity and accurate pricing. We also inquired about the additional charge of $1,000.00 for additional shipping, as the two (2) orders already included shipping. She clarified that it covered a guaranteed delivery to the loss location by Tuesday, April 18, 2024 as they needed to acquire a delivery truck to deliver these two (2) orders themselves.

Loss Solutions Group attempted to contact the insured's transformer manufacturer, Sanil Electric Co. (82-31-319-2888), but after multiple unsuccessful attempts to obtain additional supporting documents, we ceased our efforts and supported the presented cost using historical references and comparable equipment pricing.

Scope of Damage

Loss Solutions Group submits that the insured's Sanil Electric pad-mounted 3,360/4,200 kVA transformer sustained significant damage from a reported human error / accident event on March 24, 2023.

Age & Condition

Loss Solutions Group was provided with photographs of the unit and the nomenclature nameplate for the transformer. We submit that the unit was built in 2022, making the unit around one (1) year old and in average condition at the time of the claimed event.

Reparability

After reviewing the provided documentation and discussing the damages with the vendor, Loss Solutions Group concludes that the already completed repairs were appropriate and necessary to address the incident-related damage.

Cost Analysis

Loss Solutions Group assessed the proposed costs by cross-referencing with alternative vendors, drawing on historical data for similar repairs, evaluating comparable equipment pricing, and consulting directly with the involved vendor to verify reasonableness. Below is a breakdown of the associated costs.

© 2022 by Loss Solutions Group, LLC. All rights reserved.

ERS (318-453-3070) QUOTE IN EMAIL TO JANICE JONES DATED ON 10/8/25

Loss Solutions Group has reviewed the amount of $24,900.78 for the repairs to the insured's Sanil Electric pad-mounted 3,360/4,200 kVA transformer.

Included in the cost is an amount for a temporary generator to provide high voltage/amperage power to an industrial dehydration rig, a cost for out of town labor to fly in and lodge a technician for two (2) days of work to operate the dehydration rig, a cost for local labor to perform the repairs, and lastly miscellaneous other parts and materials required for the repair. We submit these components were required to complete the repair and the costs are fair and reasonable.

Loss Solutions Group has reviewed the labor costs for the vendor to diagnose the damage and to perform the repairs as well as the travel expenses. We submit that these amounts are fair and reasonable to complete the scope of work as presented to us.

PSC (570-822-1151) ORDER ID # 176367

Loss Solutions Group has reviewed the amount of $10,900.60 for the first oil order to replace the lost/damaged oil in the insured's transformer.

Included in the cost is an amount for seven (7) fifty-five (55) gallon drums of Sunoco Type II transformer oil, three (3) fifty-five (55) gallon drums of Mobil univolt oil, one (1) lever actuated barrel pump, and shipping charges. We submit these components were required to complete the repair and the costs are fair and reasonable.

PSC (570-822-1151) ORDER ID # 176377

Loss Solutions Group has reviewed the amount of $3,592.89 for the second oil order to replace the lost/damaged oil in the insured's transformer.

Included in the cost is an amount for three (3) fifty-five (55) gallon drums of Phillips 66 transformer oil, and a shipping charge. We submit these components were required to complete the repair and the costs are fair and reasonable.

PSC (570-822-1151) EMAIL RECEIPT OF $1,000 BILL FROM PSE FOR ADDITIONAL SHIPPING

Loss Solutions Group has reviewed the amount of $1,000.00 for guaranteed delivery charges.

Included in the cost is an amount for a rental truck to load the fourteen (14) fifty-five (55) gallon barrels of oil and facilitate delivery by PSC, ensuring the order reached Module X Solutions by Tuesday, April 18, 2024. We submit that this cost was essential to complete the repair and consider it fair and reasonable.

SANIL ELECTRIC CO. INVOICE SANIL/83112

Loss Solutions Group has reviewed the amount of $6,000.00 for a replacement part from the manufacture in Korea.

Included in the cost is an amount for a replacement Sanil transformer radiator section, packing materials to keep the radiator safe during transit, and a charge labeled "freight" that includes air freight charges, trucking fees, importation duties and fees, and tariffs to fly this radiator section from the manufacture's location in Korea to Module X Solutions' location in Shreveport, Louisiana.

We submit that this component was required to complete the repair, and the costs are fair and reasonable.

RCV

Loss Solutions Group conducted an independent cost analysis and recommends $46,394.27 as the fair and reasonable replacement cost value (RCV) to restore the insured to pre-loss condition. Supporting cost research is provided herein, and a detailed pricing breakdown is available in the attached spreadsheet.

Salvage

Loss Solutions Group determines that there is little to no salvage value associated with this incident.

Summary:

Loss Solutions Group's findings herein are based upon all information that was available at the time of this writing. The opinions are based upon reviewed documentation, interviews, research, experience, historical references, training and education.

1. The insured, Module X Solutions LLC, reported that their Sanil Electric pad-mounted 3,360/4,200 kVA transformer, suffered damages due to a human error / accident. A total amount of $46,394.27 was presented.

2. Loss Solutions Group was provided with photographs of the unit and the nomenclature nameplate for the transformer. We submit that the unit was built in 2022, making the unit around one (1) year old and in average condition at the time of the claimed event.

3. After reviewing the provided documentation and discussing the damages with the vendor, Loss Solutions Group concludes that the already completed repairs were appropriate and necessary to address the incident-related damage.

4. Loss Solutions Group conducted an independent cost analysis and recommends $46,394.27 as the fair and reasonable RCV to restore the insured to pre-loss condition. Supporting cost

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Janice,

There is no proposal for this repair.

This was done on a T&M basis and had to bring in a generator and processing rig, along with an outside resource to run this rig.

Generator - $4,686.00
Labor Out of Town - $9,450.00
Labor Local - $10,764.78

Janice,
I've attached Adam to this request. He would be my contact to help confirm the breakdown of the cost for this invoice that you need.

Adam,
This is the quote I was trying to find. You may not have sent one. If this is the case, please provide Janace with a cost analysis, to provide a detailed cost breakdown for our insurance claim. Thank you in advance for your help!

Subject: ERS-Vertiv inv #51079619 for MXS PO #X230376 - sanil transformer repair for job #220099

Dan,

Please see attached invoice #51079619 from ERS-Vertiv for $24,900.78. I am trying to update a claim with our insurance company and need a quote or proposal with a service/cost breakdown. If there was no formal quote or proposal done at time, just a list of services/cost would help.

Our POX230376 was dated 04/19/23.

Sincerely,
Janice R. Jones
Accounting Supervisor
