Mr. John Leonard
Travelers Insurance
P.O. Box 430
Buffalo, NY 14240-0430

RE:	Insured:	Al & Val, Inc., DBA Charlie's Diner
	Claim Number:	FVA8774
	LSG Matter Number:	787200.11663-00
	Date of Loss:	August 13, 2024

Dear Mr. Leonard,

Thank you for choosing Loss Solutions Group as your equipment loss consultant. This report serves to provide an analysis of the above-referenced claim.

Assignment:

Loss Solutions Group was contacted by Mr. John Leonard of Travelers Insurance. The scope of this assignment was to address the extent of damage, salvage value, and repair/replacement costs associated with the insured's two (2) fire suppression systems reportedly used in a reported fire event.

Findings and Analysis:

Loss Solutions Group contacted the insured, Ms. Michael Alfano with Al & Val, Inc., DBA Charlie's Diner (413-313-1007), to advise her of our involvement in reviewing this claimed event. During our conversation, Ms. Alfano explained that they experienced an electrical fire in the dining room where the smoke/fire triggered both of their fire suppression systems. They have two (2) similar systems in their diner. The first system is a three (3) gallon Ansulex system while the other is a six (6) gallon Ansulex system. Both systems needed to be flushed out and re-charged.

Loss Solutions Group contacted the insured's fire and life safety vendor, Encore Fire Protection (413-668-9100), and spoke with Mr. Mark Biseinere to discuss the claimed event. Mr. Biseinere reported that they needed to flush the two (2) systems out with a cleaning agent to remove the residual Ansulex chemical from the metal pipes/heads, blow the pipes out with nitrogen to remove the remaining water from the lines, replace the Ansulex chemical in both systems, replace their

pressurized cartridges for both systems, six (6) fusible links needed to be replaced, along with a few other miscellaneous other items.

Scope of Damage

Loss Solutions Group submits that the insured reportedly sustained a fire event causing their two (2) fire suppression systems to trigger and empty.

Age & Condition

The insured reported that the affected equipment was around twenty (20) years old and in average condition at the time of the claimed event.

Reparability

Loss Solutions Group has reviewed the information provided, and we have discussed the damage with the vendor involved. We submit that the proposed repair path was warranted as both systems were triggered and emptied during the claimed event.

Cost Analysis

Loss Solutions Group has researched the costs using alternate vendor resources, historical references, similar equipment costs, and vendor experience and we have discussed the pricing with the vendor involved. The following is a breakdown of the associated costs.

ENCORE FIRE PROTECTION (413-668-9100) QUOTE # 2108688

Loss Solutions Group has reviewed the amount of $9,386.50 for the recharging and replacement of components inside the insured's two (2) fire suppression systems.

Included in the cost is an amount for a total of nine (9) gallons of Ansulex fire suppression agent for two (2) separate systems, three (3) replacement fusible links, three (3) pressurized cartridges (one (1) for the three (3) gallon system and two (2) for the six (6) gallon system), fire suppression line cleaning chemicals, nitrogen, and two (2) replacement rubber seals. We submit these components were required to complete the repair and the costs are fair and reasonable.

Loss Solutions Group has reviewed the labor costs for the vendor to clean and recharge the two (2) fire suppression systems. We submit that these amounts are fair and reasonable to complete the scope of work as presented to us.

RCV

Loss Solutions Group submits an amount of $9,386.50 (RCV) as being fair and reasonable to return the insured to a pre-loss condition. A further breakdown of the pricing is available in the attached spreadsheet.

© 2022 by Loss Solutions Group, LLC. All rights reserved.

Salvage

Loss Solutions Group submits that there is little to no salvage value associated with this claimed event.

Summary:

Loss Solutions Group's findings herein are based upon all information that was available at the time of this writing. The opinions are based upon reviewed documentation, interviews, research, experience, historical references, training and education.

1. The insured, Al & Val, Inc., DBA Charlie's Diner, claimed that due to a fire event, both of their fire supression systems triggered and emptied. Due to this, both systems were needing to be cleaned out and recharged. A total amount of $9,386.50 was presented.

2. The insured reported that the affected equipment was around twenty (20) years old and in average condition at the time of the claimed event.

3. Loss Solutions Group has reviewed the provided information and we have discussed the damage with the vendor involved. We submit that the proposed repair path was warranted as both systems were triggered and emptied during the claimed event.

4. Loss Solutions Group submits an amount of $9,386.50 (RCV) as being fair and reasonable to return the insured to a pre-loss condition.

5. Loss Solutions Group submits that there is little to no salvage value associated with this claimed event.

If you have any questions or if you need any additional information, please feel free to contact Tanner Beuret at (866) 899-8756 ext. 755, or via email at tbeuret@losssolutionsgroup.com. Team Leader Nick Ramos can be reached at (866) 899-8756 ext. 724, or via email at nramos@losssolutionsgroup.com.

Description of Work

Customer requested repairs on their kitchen suppression system caused by a fire at his location. These repairs are critical to maintaining systems in good working order, as well as keeping compliance with NFPA and the Local AHJ. This proposal is to perform the corrective action work. Once approved, we will complete the following repairs for the (2) existing Ansul systems damaged by the fire:

- Both tanks located in kitchen must be Recharged and inspected

We have included the following with this proposal:

- Work to be performed during regular working hours (7.00am-3.30pm)
- Put systems back in service daily
- Sales Tax, Insurance

We have excluded the following from this proposal

- Cost of inspection if completed at time of semiannual inspection
- Prevailing wage unless noted in quote.
- Premium portion of overtime hour

Terms and Conditions

Upon acceptance, Encore Fire Protection and/or any of its affiliates will perform work and/or furnish materials for the install, repair, or other modification to your fire protection system at the above noted property as referenced in this contract. This is a notice that Encore Fire Protection and/or any of its related affiliates who provide labor and/or materials for the install, repair, or other modification to your fire protection system for the scope of work referenced in this contract with the above-signed, may file a mechanic's lien on the property referenced above in the event of nonpayment by you to Encore Fire Protection and/or any of its affiliates.

At Encore, our mission is providing the best possible experience for our customers. With the recent increases in material costs across the global market, we have established a 7-day approval period for all proposals that include materials. After the initial 7-day period, Encore reserves the right to adjust the proposal to reflect any applicable material increases. This will serve to help us ensure you get an accurate and timely proposal without any delay in service while keeping your systems operating properly and in compliance.

By my signature below, I authorize work to begin and agree to pay the Grand Total according to the terms and conditions of this agreement.
